

I was introduced to K-Love in Decatur, Illinois. We have since moved but I listen to K-Love on a daily basis over the internet. K-Love offers a family-friendly station that is always uplifting and positive. The programming offers everyone (Christian or non) a chance to hear something good rather than the many times offensive programming offered on radio these days. Our society as a whole is quickly slipping away from the morals our country was built on. K-Love gives the public a moral base that is important to our future generations. Please do not force K-Love off the air.
